VISUAL AND PERFORMING ARTS

With the passage of the Goals 2000: Educate America Act, education in the visual and performing arts was written into federal law. The law acknowledges the arts as a core subject, as important to education as language arts, mathematics, history, science, and foreign languages. Furthermore, California law requires courses in visual and performing arts/foreign language for high school graduation. Both district-developed and district-adopted texts and guides are used throughout the TK–12 curriculum.

Elementary-level music and art are taught using state-approved commercial textbook series. Theatre and dance are taught at the discretion of classroom teachers and often are used as pedagogical strategies to improve learning.

Education Code Section 51210 mandates for grades 1 through 6 study in visual and performing arts, including instruction in the subjects of art and music, aimed at the development of aesthetic appreciation and the skills of creative expression.

Education Code Section 51220 mandates for grades 7 through 12 study in visual and performing arts, including dance, music, theatre, and visual art, with emphasis on development of aesthetic appreciation and the skills of creative expression.

* For grade 6 students in an elementary setting.

Art Grade 1

Strands emphasized:
Creating presenting; responding, connecting

Students explore basic components of visual literacy. The analysis of line quality, classification of eight basic colors as primary, secondary, and neutral, and the introduction of implied and actual texture develop their understanding of the elements of art. Students replicate, predict, and create simple patterns in works of art to make meaning. Students develop skill in the use of art tools (graphite and colored pencils, crayons, watercolor and tempera paint, scissors, chalk, and clay) for self-expression and to distinguish between media when looking at works of art. Instruction includes theme or subject matter in works of art (still life, portrait, landscape). This course provides the opportunity for students to make art in collaboration with others and individually, compare images that represent the same subject, and build art vocabulary through discussion on personal portfolios, exhibitions, and culturally important works of art.

Basic Instructional Materials
Art Prints, Levels 1-3: Set A.
SDUSD VAPA Core Learnings, 2005.

Supplementary Resources
Art Study Sets (19 titles; available at the IMC).

Art Grade 2

Strands emphasized:
Creating presenting; responding, connecting

This course develops students’ understanding of the elements of art by introducing space, with a focus on composition and warm and cool colors and their relationship to mood. Students use repetition in their own original works of art to strengthen meaning, while refining acquired and developing new skills in the use of art tools (printmaking, paper weaving, and oil pastels) for self-expression. Instruction includes exploring the illusion of space through overlapping and bi-lateral and radial symmetry. This course provides the opportunity for students to begin to recognize cultural diversity by exploring art from various cultures represented in their classroom and build art vocabulary through discussion of personal portfolios, exhibitions, and works of art.

Basic Instructional Materials
Art Prints, Levels 1-3: Set A.
SDUSD VAPA Core Learnings, 2005.
Supplementary Resources
Art Study Sets (19 titles; available at the IMC).

Art Grade 3

Strands emphasized:
Creating presenting; responding, connecting

This course develops understanding of the elements of art by focusing on the illusion of space (foreground, middle ground, and background) and introduces value through tints and shades (color). The principles of art are introduced by examining how repeating elements in works of art can create rhythm and movement. Instruction includes size relationships, placement, intensity, and tints and shades in students' original works of art. The introduction of a personal sketchbook/journal gives the third grader a new art tool to record art vocabulary, illustrate examples, practice skills, and develop ideas for original works of art. This course provides the opportunity for students to explore observational drawing skills by using their visual environment as themes for personal portfolios. Students build knowledge of cultural diversity by exploring art from various cultures within the region while build art vocabulary through discussion of exhibitions and works of art.

BASIC INSTRUCTIONAL MATERIALS
Art Prints, Levels 1-3: Set A.
SDUSD VAPA Core Learnings, 2005.

Supplementary Resources
Art Study Sets (19 titles; available at the IMC).

Art Grade 4

Strands emphasized:
Creating presenting; responding, connecting

This course uses positive and negative space and complementary colors (elements of art) to introduce contrast and emphasis (principles of design). Students explore the concept of proportion by learning the conventions of facial and figure drawing. This course builds observational drawing skills through the practice of shading techniques. This course helps students develop good artistic habits by continuing to use a sketchbook/journal. Students use new artmaking tools by creating additive and subtractive sculptures and weavings while focusing on handmade art by diverse cultures in California both currently and in the past. Visual literacy skills and visual art vocabulary are strengthened through discussion and written analysis and interpretation of exhibitions and works of art.

BASIC INSTRUCTIONAL MATERIALS
Art Prints, Levels 4-6: Set B.
SDUSD VAPA Core Learnings, 2005.

Supplementary Resources
Art Study Sets (19 titles; available at the IMC).

Art Grade 5

Strands emphasized:
Creating presenting; responding, connecting

This course introduces the principles of design as a compositional concept, focusing on unity and harmony. Representational, abstract, and nonrepresentational (non-objective) works of art are identified, described, and created using all the elements of art thoughtfully. This course deepens observational drawing skills through gesture, contour, and single-point perspective (transparent and solid geometric objects in space) drawing instruction. The use of individual sketchbook/journals continues as students solve artmaking problems using found objects, traditional mixed media, and electronic media where available. Students begin to develop criteria to evaluate works of art in cultural and historical context.

BASIC INSTRUCTIONAL MATERIALS
Art Prints, Levels 4-6: Set B.
SDUSD VAPA Core Learnings, 2005.

Supplementary Resources
Art Study Sets (19 titles; available at the IMC).
Art Grade 6

Strands emphasized:
Creating presenting; responding, connecting

In this course, all elements of art are identified in relationship to the principles of design (especially balance), theme, genre, style, and chosen media to analyze and interpret works of art. This course offers opportunities to practice and refine acquired observational drawing skills (gesture, contour, and rendering), painting, printmaking, fiber, and sculptural skills. Experience in single-point perspective is refined and extended when two-point perspective is introduced. The use of individual sketchbook/journals continues as students solve-art making problems, including visual metaphors. Researching visual art and its role in ancient cultures provides students an opportunity to share representative images, symbols, unique use of the elements of art, and their own reflective works of art in a portfolio, exhibition, or presentation.

Art Grade TK and K

Strands emphasized:
Creating presenting; responding, connecting

This course introduces the elements of art as basic components of visual literacy. Instruction includes identity and description of line, basic geometric shapes, eight basic colors, and “form” as a term indicating three dimensions. Students recognize and describe simple patterns in the environment and in works of art. They demonstrate beginning skill in the use of art tools (graphite and colored pencils, crayons, watercolor and tempera paint, scissors, glue, and clay) to express feelings and ideas. This course provides the opportunity for students to build art vocabulary through discussion on personal portfolios and exhibitions.
